

An **Institutional CRM** (Customer Relationship Management) system helps manage interactions, processes, and data for educational institutions, training centers, and universities. Below are the key modules typically included:

1. Lead & Inquiry Management

- ✓ Capture student inquiries from multiple sources (website, calls, social media)
- ✓ Automated lead distribution to counselors
- ✓ Follow-up tracking & reminders
- ✓ Inquiry categorization (Hot, Warm, Cold)

2. Admission & Enrollment Management

- ✓ Online admission form & document submission
- ✓ Admission approval workflow
- ✓ Course & batch allocation
- ✓ Fee calculation & invoice generation

3. Student Information Management

- ✓ Centralized student database
- ✓ Attendance tracking system
- ✓ Course & subject mapping
- ✓ ID card & profile management

4. Fee Management & Accounting

- ✓ Custom fee structure setup (installments, discounts, scholarships)
- ✓ Automated invoicing & payment tracking
- ✓ Integration with payment gateways (UPI, Credit/Debit cards, Net Banking)
- ✓ Outstanding fee reminders

5. Communication & Notifications

- ✓ Automated email, SMS, & WhatsApp notifications
- ✓ Student & parent communication channels
- ✓ Event & announcement notifications

6. Faculty & Staff Management

- ✓ Faculty & staff profiles with access control

- ✓ Attendance & leave tracking
- ✓ Payroll & salary management

7. Course, Class & Batch Management

- ✓ Course creation & batch allocation
- ✓ Timetable scheduling & management
- ✓ Virtual classroom integration (Zoom, Google Meet)

8. Assignment & Exam Management

- ✓ Online assignment submission & evaluation
- ✓ Exam scheduling & result management
- ✓ Online test integration

9. Parent & Alumni Portal

- ✓ Parent login for student progress tracking
- ✓ Alumni engagement & networking tools

10. Reports & Analytics

- ✓ Student performance tracking
- ✓ Enrollment trends & statistics
- ✓ Revenue & financial reports
- ✓ Faculty performance analytics
